3. PREPARATORY EDUCATION AND STUDY AT UNIVERSITY

(1) Preparatory Education ※Not provided for grantees enrolling directly in their university

- ① Each grantee will be enrolled at a preparatory educational institution designated by MEXT for the first year of the scholarship period. The preparatory course is a one-year intensive course in the Japanese language and other subjects necessary for preparation for proceeding to university. Its curriculum mainly consists of education in the Japanese language, and includes other subjects such as Japanese affairs, mathematics, English, and social studies for those majoring in Social Science and Humanities, and physics, chemistry and biology for those majoring in Natural Sciences.
- ② A grantee who has completed the preparatory education will go on to a university designated by MEXT upon passing its entrance examination undertaken by the university. If a grantee is determined to be incapable of completing the preparatory course, his/her scholarship will be cancelled and he/she will be required to return to his/her home country.
- ③ If a grantee cannot enter the university even though he/she has completed the preparatory education, his/her scholarship will be cancelled, and he/she will be required to return to his/her home country.

(2) University Education

- ① The university which a grantee will enter will be decided by MEXT in consultation with the university and the preparatory educational institution and in comprehensive consideration of the results of the academic examinations in the First Screening conducted at the Japanese Embassy or Consulate (hereinafter referred to “Japanese diplomatic mission”) in the country of applicant’s nationality, academic achievement at the preparatory educational institution, the grantee’s proposed major subject, and the receiving capacity of the university as well as the region where it is located. No objection by the grantee against the decision will be allowed.
- ② In principle, the academic year begins on April 1 each year and ends on March 31 the following year.
- ③ All classes will be given in the Japanese language (except where a grantee is directly placed at a university which requires no Japanese language ability). (See 4. DIRECT PLACEMENT)
- ④ If a grantee attends the designated university for the prescribed number of years and earns the required number of credits as determined by the university, he/she will be awarded a bachelor’s degree.

(3) Change of Field of Study, Transfer to Another University and Subjects to be Studied

- ① A grantee will not be permitted to change his/her course (Social Sciences and Humanities A and B, and Natural Sciences A, B, and C).
- ② A grantee will not be permitted to transfer to another university during the period of the preparatory education course or the undergraduate course.
- ③ A grantee must study compulsory subjects as determined by the preparatory educational institution and the university even if he/she has already studied them at a university outside Japan.

4. DIRECT PLACEMENT

- (1) Only for those who choose “Social Sciences and Humanities”, if MEXT judges that they have sufficient Japanese language ability, etc., they will be directly placed in a university without going through preparatory education. In addition, regardless of their fields of study (either Social Sciences and Humanities or Natural Sciences) applicants who have sufficient Japanese language proficiency may request to enroll directly in their university without taking the preparatory education course. For cases where the undergraduate course of a university does not require Japanese language proficiency at the time of enrollment and allows applicants to enroll without going through the preparatory education, applicants may directly enroll in the said undergraduate course. (These cases are called “direct placement”.) In such cases, enrollment may be either from the spring term (grantees arrive in Japan in April 2025 and start from the spring term) or from the autumn term (grantees arrive in Japan in September or October 2025, and start from the autumn term), depending on the university’s academic calendar.
- (2) The decision on universities of applicants who are eligible for direct placement shall be made by MEXT in consultation with the relevant university, based on the preference of each applicant who has passed the First Screening. The university will examine the applicant’s academic achievement (academic grades in high school, etc.), and determine whether the applicant has adequate language skills for taking an undergraduate course in

either Japanese or English by a language proficiency test score (such as the Japanese-Language Proficiency Test (JLPT) for Japanese). In addition, some universities may conduct interviews with applicants or other examinations.

- (3) The period of consultation for direct placement will be from after the Second Screening to February 28, 2025. If the accepting university agrees to accept the applicant, he/she will enroll in the university under direct placement, otherwise he/she will be required to enroll in the preparatory educational institution.

5. QUALIFICATIONS AND CONDITIONS

(1) A grantee who studies at a preparatory educational institution prior to enroll in a university: The scholarship period will last for five years from April 2025 to March 2030, including one-year preparatory education in the Japanese language and other subjects due to be provided upon arrival in Japan. For scholarship grantees majoring in medicine, dentistry, veterinary medicine or a six-year course in pharmacy, the scholarship period will be seven years until March 2032.

(Note) If the university term begins (and the student status is acquired) in the middle of the month, the scholarship will not be paid for that month.

(ex.) If the university's autumn term starts on a day between September 2 and September 30, 2025, the beginning month of the scholarship period shall be October 2025.

(2) A grantee who enroll in a university through direct placement: The scholarship period will last for four years (or for six years for those majoring in medicine, dentistry, veterinary medicine or in a six-year course in pharmacy). In cases when it is impossible for the grantees to fulfill the fixed standards necessary for practical training, the scholarship may be cancelled.

(3) Extension of period of scholarship

If a grantee graduates from an undergraduate course, is admitted for enrollment in a master's course or a doctoral course (first phase) at a graduate school during the period of his/her scholarship and has outstanding academic achievement that meets certain criteria, he/she may have the scholarship period extended upon a successful examination by MEXT.

(1) Allowance: 117,000 yen per month. A supplemental regional allowance of 2,000 yen or 3,000 yen per month will be added to the monthly scholarship amount for the grantees studying or conducting research in specially designated regions. Due to the situation of the Japanese Government's budget, the amount of payment may be subject to change each fiscal year. If a grantee is absent from the university or the preparatory educational institution for an extended period, the scholarship shall be suspended for that period.

(2) Education Fees: Fees for the entrance examination, matriculation, and tuition at universities will be waived.

nationality to Japan. In such cases, MEXT will provide an economy-class airline ticket from the grantee's country of residence to the said third country, and from the third country to an international airport in Japan used on the normal route to the accepting university. In principle, the address given in the space for "Your address before departure for Japan" on the application form shall be recognized as the "residence," and the airline ticket will be arranged for a flight from the international airport nearest to that address. If a grantee continues to stay in Japan after the scholarship period has ended (ex. proceeding to further education or being employed in Japan, continuing to be registered at the university), travel expenses for a temporary return will also not be paid.

8. SUSPENSION OF PAYMENT OF SCHOLARSHIP

Payment of the scholarship will be cancelled for the reasons given below. Should any of the following reasons apply, the grantee may be ordered to return a part of, or all of, the scholarship paid up to that time. Payment of the scholarship may also be stopped during the period up to the decision on the disposition of the matter.
